A Big Wheat Crop For 1899.

That's our prediction for Mason, Bracken and Robertson counties. We make no pretentions in the way of fortune telling; neither are we a prophet. We are simply gifted with a goodly amount of "hores sense." We know that there will be a good wheat crop next year, because the bulk of the wheat sown this fall will be sewn with Empire Dies Drills, and they make no mistake. Empire Drills are positive and absolute. They do exactly what you tell them to do. The Empire Dies Drill is the only positive feed drill made. It will feed the same quantily of wheat, rye, oate or barley with the same geer. Size of the grain cuts no figure with the Empire. You do not have to sow four or five acres before you know what you are doing as with other drills. The Empire has telescoping steel conductors. The Empire drag bars are fastened to the top of the bood, five inches higher than on other drills and trash will not choke and stop the Empire.

EMPIRE

will drill corn successfully. Remember, the Empire is a positive feed drill, and the only one on the market. The grain is gently lifted into the conductors by a round, saucer-shaped part which is made to rotate by a square shaft. Only so much grain can be lifted and fed as this part will hold, and in order to sow a large or small quantity of grain per acre you simply put a large or small cope wheel on this shaft, which makes the round, saucer-shaped lift revolve faster or slower. Each cog wheel is numbered and guaranteed to sow an exact quantity of any grain per acre—wheat, ryo, oats, barkey. The Empire has tapering axies like a thimble-skein wagon, and a peculiar wheel, a wheel that we will guarantee will not rub the boxes in dive years as on other drills—no, not in twenty-dwe years. Buy the best. Buy the Empire and take advantage of 4s years experience. The Empires like Drill. Ask your granifiather about it. Ask any old eitzen if he ever heard of an Empire Drill. I can show you an Empire Drill that is 3 lyes old and still rounting. The Empire for 4s years has had a National reputation—known and used the world over except Mason county. The Empires not a cheep drill. It costs the agent a little more than other drills. Perhaps that is why our implement dealers have never sold the Kmpire Drills are being exhibited and sold in Mason county now. I have shown this drill to at least 50 farmers in the last two weeks and every one is enthusiastic in its praise. Call, examine this wonderful machine and convince yourself. It is a pleasure for us to exhibit it. Call and see us.

Fourth Kentucky Regiment, Now Stationed at Lexington, Ordered to Move.

TO BECOME PART OF REGULARS

Colonel D. G. Colson has been order by the Secretary of War to proceed as soon as practicable with the Fourth Kentucky Regiment to Jackson ville, Fla., and report to the Commanding General

there.

For some time Colonel Colson has beet endeavoring to get the Fourth into active service, and when at last the telegram was received at Lexington ordering the move enthusiasm among the soldiers ran high.

This passage was uttered by Balaam the Prophet of Mosb, and was an expres-sion of wonder at what God had done and would yet do for Israel. He knew their past by history, their future by inspiraa wonderful career of a marvelou

im his covenant, had sent Joseph, Jaco and family into Egypt, and with a mighty hand had emigrated their posterity three millions strong and brought them, guided by the pillar of cloud by day and of fire by night, to the borders of Moab. Now, looking forward, God showed to him Is-rael crossing the Jordan, capturing the walled city Jericho, followed by the connuest of Canaan and their establishmen quest of Canana and their examinations as a Nation. Continuing the vision, he saw the Nation under David, their greatest King, destroying their enemies and enlarging their borders according to God's original promise, and David and his king. dom honored by all surrounding Nations.

He beheld Solomon "in all his glory."

But doubtless he still saw further, and the "star of Jacob" arose on his vision and the world by his light pioneered to Christian civilization. Then it was to be said, "What Hath God Wrought!" He was to have the glory of all that had been done. He is the great worker, and no great and good work has ever been or ever will be done without Him.

The text suggests the imminence of God in the affairs of the human race.

Reason and revelation combine to teach the second and revention combine to teach us that God does govern this world and the people who are in it. Creation requires the Creator to control. It is not compatible with the goodness of God to conclude that God would launch such a world into existence, with all its wealth of animals, men and angels, and leave it to drift to inevitable ruin without His care. His goodness prompts Him to gov ern for the happiness of the creatures He has made. Being everywhere present at all times, He sees the needs of all and His wisdom enables him to determine what is wisdom chaoles aim to determine which the best, while His power can execute without friction or embarrassment His most minute, simple and complicated plans. There is doubtless by the original endowments of buman nature a love for the ride. Flags and the downwents of buman nature a love for the forest; and especially is this love devolped in the heart of a true worshiper of God. "The groves were God's first temples," and as long as trees lift their on the subject and a good influence has tremples when the subject and a good influence has the objective point, which they reached foliage crowns their graceful branches. will aspiring souls delight to roam the forest and let their hearts climb on these majestic trees toward the sky. By a Divine prearrangement campmeetings supply a want in our nature not found anywhere else. The Holy Spirit led us to realize this need to our work in Ken-tucky of a campmeeting. Our people were seeking for such privileges as far as convenient in Ohio and other regions, and He gave us hearts to wish for such a tributary to swell the great river of Salvation. He unified the

earts and minds of Presiding Elders Pastors and minus of Presiding Edges,
Pastors and people in a desire for it. He
directed in the selection of its location.
We had made a serious effort near Ger mantown and had failed after everything seemed propitious. Rev. H. J. Ramey seemed propitious. Rev. H. J. Ramey and I tried to find a location in Robert-son county, but without success. When Brother Ramey was appointed to Tolles boro Circuit we made a joint effort to find a suitable place but none seemed available until Brother Ramey secured a grant of land at Forman's Springs. He grant of land at Forman's Springs. He secordingly appointed a preliminary meeting at that point, and we notified Preacher and people of time and place. But before the time came the parties owning the land refused its use. Then a basket-meeting was appointed for the grove at Canasa Church. There we met with no apparent prospect for a situation for permanent camping grounds. Seem-pairy we had drought as the property of the pro-paging we had drought as the pro-paging we had drought we had been allowed and had ingly we had done all we could and had

failed.

But "Man's extremity was God's Opportunity." In the midst of our meeting God put it into the heart of Brother William Ruggles to come and offer to us William Ruggies to come and one to us this twenty acres and on very moderate terms. Fully believing that a Divine hand had guided us, we, after a sufficient ex-amination. thankfully accepted the offered locality. God gave us the men

Look at these beautiful grounds, thes

on this subject and a good influence has been exerted on our county schools. Schoolhouses and teachers have been im-proved, and I have no doubt but that a large number of young people have been stimulated to get a better mental furnish

ing for their life work.

Patriotism, indirectly at least, has received an uplift in meetings held here, and good citizenship has experienced great benefits in the speeches and ad-dresses delivered from this platform. The liquor traffic has received an

annual bombardment and the cause of temperance, including total abstinence and legal prohibition, has been continu-ously, strenuously and successfully urged upon our congregations, and a change for the better is doubtless manifest to every candid observer of what was and is in this county.

It has been a great pleasure socially to

the Lord's people. When this meeting was organized they had not met each other. Our people of Maysville did not know those of Vanceburg and they of Vanceburg did not know those of Mays ville; and Tollesboro people knew nei ther, and those of our country Churches knew none of them. But our Camp-ground is a great place to get acquainted and how many have found new friends here, whom they had not dreamed of, who have been benedictions to them ever since. I wish some time and somewhere to meet and talk to every good man that God has ever made and a campmeeting is a good place to begin that long list of friends we shall find in the ultimate home of the saints.

Good health has smiled on many; who left their homes invalids Let one say that good air, fine scenery, pure wate and food, pleasant associations, mingle with a pure and full Gospel, are wonder ful remedies for the ills and infirmities of

both body and soul.

The Gospel has here been preached by hundreds of godly men under the power of the Holy Spirit to multiplied thou sands of immortal souls and hundreds have been convicted and converted. Others have received a grand uplift in spiritual life, while in many the love o spiritual life, while in many the love of God has been made perfect. Quite a number who first received the Divine life here have kept the faith and are crowned now in Heaven. Strong influences have been exerted on

our societies at home by returning new converts and the increased zeal of God's people, and gracious revivals have fol-lowed in localities where we would not
